"Sustained Value is the difference between what you can do alone and what you can do with us."

*James Kennedy
Waypoint Leadership*

James T. Kennedy has over 20 years experience in strategic project management, new product development and financial project management across industries ranging from high tech to retail products.

His career includes:

- *Leading product development for multiple high-tech companies from concept to successful release and through full PLM.*
- *Two nominations for Computerworld/Smithsonian honors for contributions to the betterment of society through exceptional use of information technology.*
- *Managing over a dozen M&A projects, from initial contact to post merger integration that totaled over \$1 billion in deal value.*
- *Developing best practices as a senior finance and strategy executive at companies ranging from Fortune 10 companies to venture-funded start-ups.*

His focus at Waypoint:

- *Managing strategic project implementations and process improvement projects that deliver business solutions in fast-paced, high-volume businesses of all sizes.*
- *Strategy development combined with the development of financial and technology infrastructure.*
